

Practical Activity

1. Perform a Google Search:

- Open your web browser and go to www.google.com.
- In the search bar, type “weather today” and press Enter.
- Look at the results and click on a link to check the weather in your area.

2. Visit a Secure Website:

- In the browser, type in “www.wikipedia.org” and press Enter.
- Notice the padlock icon next to the web address. This shows the site is secure.
- Navigate to a page of interest, like searching for “Albert Einstein” on Wikipedia.

3. Practice Safe Browsing:

- Try searching for something else of interest, like “healthy recipes” or “local news.”
- Before clicking a link, check to see if it’s a reputable website.
